

### Idle Facts

- ◆ Idling wastes 1/2 - 1 gallon of fuel per hour; more than turning off, and on, your vehicle.
- ◆ A single vehicle dropping off and picking up a child at school emits more than 3 pounds of pollution into the air each month.
- ◆ Vehicle exhaust is the leading source of toxic air pollution in [State Name].
- ◆ Air pollution is associated with asthma, childhood cancers, and learning disabilities.
- ◆ Frequent restarting has minimal impact on engine components like the battery and starter.
- ◆ **For the health of our kids and community, please turn it off! Thank you :)**
